Chetan Kunte

ckunte@gmail.com

Offshore structures engineer with 29 years of proven track record in engineering, fabrication, and installation of fixed and floating offshore systems, and 13 years in supporting and troubleshooting for operating units. Experienced in managing projects and engineering teams, inter-discipline coordination, cost control, and stakeholder management. Self-driven professional, striving for safety and quality in all undertaken activities without compromising schedule or cost. Strives to help deliver challenging projects, and manage assets efficiently—both as a team leader as well as an individual contributor. Generates value by employing competitive scoping, standardisation, automation where practicable, and by delivering via others.

Education

2021 Wind energy, Technical University of Denmark (DTU, DK)
2017 Project management framework, Shell Academy, IN
2016 P299 Layout course, Shell Academy, IN
2013 Managing upstream business, Shell Academy, NL
2012 Advanced analysis with USFOS, MY
2010 Assessment of maritime (hull) structures, DNV, NL
2008 Facilities integration and production engineering, Shell Academy, NL
2008 Developing Exploration and Production business skills, Shell Academy, NL
2007 Advanced knowledge management, Shell Academy, NL
1994 M.Eng., Structural, Karnatak University, IN

Professional accreditations

2015 Associate member of the Royal Institution of Naval Architects
2011 Member of American Society of Mechanical Engineers

Honours

2023 For successfully leading the delivery and assurance of the engineering design of the Crux substructure to completion, *by Shell Australia*.

2021 Awarded Distinguished Talent Residency for contributions to Australian and international projects in the energy sector, *by Government of Australia*.

2020 For developing a criteria for reliability for a manned fixed platform in HI field offshore West Africa, *by Shell Nigeria*.

2019 Service Recognition Award for enabling the concept of a fixed offshore structure in 170m in challenging design conditions (calcareous soils) and prevailing geohazards, with robustness to pass Decision Gate 3, *by Shell Australia*.

2018 For successfully leading the delivery and assurance of the engineering design, construction, and installation of the CALM buoy replacement, *by Brunei Shell Petroleum*.

2017 For championing new technology, product development and maturation (viz., employing smoothed particle hydrodynamics in remote flare buoy design; flaring, station-keeping) in extreme low wind conditions, *by Qatar Shell*.

2016 For developing a lean new emergency power generation host within PAA platform's highly congested layout, and designing it to withstand blast over-pressures, while minimising impact to the supporting box girder deck, saving 67% tonnage, and simplifying offshore construction activity, *by Sakhalin Energy*.

2013 Service recognition award (drilling, conductor repair) for engineering and execution of novel and low cost conductor repairs at SFDPA platform, *by Shell Malaysia*.

2012 For mitigating fabrication challenges in eight lift safety critical welding joints in E8K and F13K compression modules, 1,800t each, *by Shell Malaysia*.

2011 For (a) the maturation of floating LNG's weather-vaning turret-mooring concept, and response-based mooring design for application in harsh cyclonic environment, (b) turret size optimisation, and (c) developing a qualification process for the largest polyester rope for station-keeping for ultra deep water applications, jointly by *Shell Projects and Technology* and *Shell Australia*.

2005 For developing and designing Kikeh topsides for the catamaran tow to mate with Asia's first deep water truss SPAR, *by Murphy Oil Malaysia*.

2001 For engineering and execution of two lean fixed offshore platforms, Bintang A and B, *by ExxonMobil Malaysia*.

2000 For evaluating and mitigating foundation reliability from well-blowout event at EWE platform, *by Unocal Thailand*.

Positions

2024-date Principal engineer, Kent Australia
2019-24 Substructure lead, Crux project, Shell Australia Pty Ltd
2016-18 Principal technical expert, Shell India Markets Pvt Ltd
2012-15 Team lead offshore structures, Shell Malaysia Exploration & Production
2006-11 Snr. research engineer, Shell Intl. Exploration & Production, The Netherlands
2000-06 Lead offshore structures engineer, Technip Malaysia
1996-00 Offshore structures engineer, John Brown Engineers India
1995-96 Junior engineer, Gammon India

Monograph

2024 m-one — a collection of notes and code from engineering offshore structures.

Technical notes and papers

Development

2023 V Anokhin, N Zaremba, C Kunte, *Development of time load histories for cyclic pile loading for Crux platform*, Crux project library.

2022 M Efthymiou, C Kunte, *Crux reliability accounting for wave-in-deck loading*, Crux project library.

2022 C Kunte, *A review of changes in ISO 19902:2020 standard and their relevance to CRUX fixed steel offshore platform design*, Crux project library.

2021 C Kunte, *Structural steel grade*, Crux project library.

2021 C Kunte, *Crux Topsides: Review of Weights*, Crux project library.

2021 C Kunte, *A review of helideck and its support structure weights*, Crux project library.

2021 C Kunte, *Review and selection of offshore pedestal-mounted crane standard*, Crux project library.

2020 C Kunte, P Verlaan, *Offshore West Africa:* γ_E *and* R_m for exposure levels, Shell P&T library.

2020 C Kunte, *Jacket in-service performance assessment from proposed revisions to horizontal frame elevations*, Crux project library.

2020 C Kunte, *Riser span assessment*, Crux project library.

2020 C Kunte, *J-tube design assessment*, Crux project library.

2020 C Kunte, *A review of tenderer-submitted information in support of steel mill capabilities in the context of requirements for offshore structural steel materials for Crux project*, Crux project library.

2019 C Kunte, *Crux topsides elevation considerations*, Crux project library.

2019 C Kunte, *Review and selection of offshore pedestal-mounted crane standard for the Crux project*, Crux project library.

2018 M Garvey, C Kunte, M Efthymiou, *Determination of exposure level for the Crux fixed offshore platform*, Shell P&T library.

2018 A Mittal, C Kunte, J Mittal, V Ramohalli Gopala, V Chimmapudi, C Maslen, *Feasibility for remote flare deployment offshore Qatar*, Shell P&T library.

2017 C Kunte, N Saraswat, M Mathews, Crux fixed platform – *Substructure request for information*, Shell P&T library.

2017 C Kunte, A Meshram, P Sarathi, *Chinese GB steel feasibility for fixed platform concept in Crux field development*, Shell P&T library.

2017 C Kunte, Crux fixed platform – *Influence of wider topsides layout and potential future cantilever module on substructure design*, Shell P&T library.

2016 C Kunte, R Fearon, JW vd Graaf, et al., Crux fixed platform – *Influence of soil sensitivity on platform foundation*, Shell P&T library.

2014 C Kunte, R Bolhassan, J Juing, *A minimum facility, low cost substructure concept for SF-LCD project*, Shell Malaysia library.

2010 C Kunte, M Efthymiou, *FLNG Lean turret mooring feasibility*, Shell P&T library.

2010 C Kunte, N Abidin, S Manktelow, *Generic FLNG mooring and hybrid riser tower design – Feasibility study for Tupi field*, Shell P&T library.

2010 C Kunte, H Shu, M Efthymiou, *Qualification of polyester mooring ropes*, Shell P&T library.

2009 C Kunte, N Abidin, S Manktelow, *Generic FLNG mooring and hybrid riser tower design – Feasibility study for Carnarvon basin*, Shell P&T library.

2009 C Kunte, M Efthymiou, *Generic FLNG mooring design feasibility for Carnarvon basin*, Shell P&T library.

2009 C Kunte, H vd Meyden, *Shell FLSO Concept – External turret mooring and riser analysis report*, Shell P&T library.

Drilling support

2017 C Kunte, Crux fixed platform – *Temporary drilling deck*, Shell P&T library.

2016 C Kunte, P Sarathi, *Review of Crux fixed platform for jack-up access*, Shell P&T library.

2016 A Meshram, C Kunte, Crux fixed platform – *Preliminary structural feasibility of early tad drilling over jacket substructure*, Shell P&T library.

2014 C Kunte, *Feasbility of BTMPB platform for well intervention activities at BT-206*, Shell Malaysia library.

2014 C Kunte, T Wong, *Feasibility of SFDP-A platform for pre-drill and well intervention activities*, Shell Malaysia library.

Installation

2021 C Kunte, *Grouting*, Crux project library.

2021 C Kunte, *Assessment of Buoyancy and Flotation Tanks for Jacket Installation*, Crux project library.

2021 C Kunte, *Criteria for jacket on-bottom stability and storm safety*, Crux project library.

2021 C Kunte, *Drop object impact assessment of drill pipe over drilling template*, Crux project library.

2020 C Kunte, *Integrity assessment of piles during sea-transportation*, Crux project library.

2019 C Kunte, *Drill caisson design*, Crux project library.

2018 M vd Kraan, M Veen, R Fearon, C Kunte, Crux fixed platform – *Feasibility of jacket installation over pre-drilled wells subsea*, Shell P&T library.

2017 C Kunte, Crux fixed platform – *Structural integrity assessment of topsides during sea-transportation*, Shell P&T library.

2015 C Kunte, SY wan Alwi, *Barge motion responses in the South China Sea*, Shell Malaysia library.

Asset integrity management

2023 C Kunte, *A review of 2022 underwater inspection reports for strength and serviceability of MLJ1 and MLJ2 platforms offshore Brunei*, Shell P&T library.

2016 C Kunte, P Sarathi, *Loading platform pile integrity check during fender replacement at BLNG jetty*, Shell P&T library.

2016 C Kunte, P Sarathi, *Integrity assessment of breasting dolphin structures during air block fender change out stages, BLNG jetty*, Shell P&T library.

2016 C Kunte, P Sarathi, *Cell fender feasibility for breasting dolphins, BLNG jetty*, Shell P&T library.

2016 N Maheshwari, C Kunte, P Sarathi, K Mash, *Sakhalin LNG plant – Structural adequacy of 125m and 60m flare derricks for increased wind speeds*, Shell P&T library.

2016 C Kunte, K Mash, *PAA offshore platform – Review of the new proposed emergency power generation module structure for accidental exposure to blast over-pressures*, Shell P&T library.

2014 C Kunte, S Loh, *A review of SJQA platform's structural integrity and its feasibility as tie-in host*, Shell Malaysia library.

2013 S Wan Alwi, S Loh, H Abdullah, C Kunte, *North Sabah ADP – Structural feasibility of platforms For the chemical delivery system*, Shell Malaysia library.

2013 C Kunte, *Design corrosion allowances*, Shell Malaysia library.

Software development

typst-snippets-st Offers useful text-expanding snippets for Sublime Text editor in authoring papers, notes, reports, and viewgraphs effortlessly Typst. (Repository, MIT license, open source, freeware)

typst-snippets-vim Offers useful text-expanding snippets for Vim and Neovim text editors in authoring papers, notes, reports, and viewgraphs effortlessly Typst. (Repository, MIT license, open source, freeware)

csv2sacs Python scripts to convert Metocean data into a readily usable SACS seastate input file(s). (Repository, MIT license, open source, freeware)

latex-snippets-st Offers useful text-expanding snippets for Sublime Text editor in authoring papers, notes, and reports effortlessly in LaTeX. (Repository, MIT license, open source, freeware)

latex-snippets-vim Offers useful text-expanding snippets for Vim and Neovim text editors in authoring papers, notes, and reports effortlessly in LaTeX. (Repository, MIT license, open source, freeware)

sacs_st A cross-platform syntax highlighting plug-in for Sublime Text editor that colour codes various SACS input parameters to help break the monotony of text and improve readability of model input files. (Repository, MIT license, open source, freeware)

usfos_st A cross-platform syntax highlighting plug-in for Sublime Text editor that colour codes various USFOS input parameters to help break the monotony of text and improve readability of model input files. (Repository, MIT license, open source, freeware)

chisel A lean, static website generator publishing software written for python with many useful features. (Repository, MIT license, open source, freeware)
